INTRODUCTION

MAZHER HUSSAIN ABDUL GHANI

I had born on August 7, 1986 in a small village named Kotali Khokhran, district Sialkot, Pakistan. That pastoral background granted me vivid imaginations, great sensation to appeal love poetry and an attempt to express a philosophy of mysticism and romance. In early days of life I fell in love with nature and the natural aspects in surroundings. The sensation of love tempted me to read literature after school. Finally, I earned my master degree in English literature from the University of Punjab, Lahore.

My father's death in early phase of life had a profound effect on life. So, in early age learned lessons from life. But the grace of Almighty was there to grandeur love into my soul to see the beauty. Love of mother and siblings was a great support to continue with the pace of life and meet the challenges.

Love for poetry was always there in my heart, but I started my poetical journey in my college days, I was ambitious to dwell deep into the seas of mysticism and romance and pen the verses of love.

There are many intellectual personalities who inspired me and helped me in this long journey of publishing my first poetry book "Enchanting Verses of Love". First of all, I would like to thank my family and friends who were always there to support me. My mother's prayers and support is a blessing to me. My niece, a wise and intellectual figure in early age, who is in the final years of her medical studies, my wife, brothers, sisters and rest of the family members. My friends Rizwan Nini, Zaheer Abbas, Gulzar Ahmad, Qamar Hussain, Shahzaib, Natish, Wajid and Natiq Hussain specially Mr. Johnny who helped me a lot to accomplish this task.

I am grateful to Dr. Seema Devi Ji from India, a poet, an artist, and a spiritual healer, who started this journey with me and remained a vital source of poetic inspiration. Lastly, I am thankful to Mrs. Feliz Ruiz from Philippine who is a great motivator in poetry field, and she always encourages my positive approach to poetry. Special thanks to Dr. Ray Lindley for his motivation.

PREFACE

Mazher Hussain is a poet, councilor and a guide more than a teacher has portrayed words on the canvass of love with the ink of romance in his poems. His poetry presents beautiful mystic pictures and ever-flowing language of expression. He creates a world where he can express his feelings and emotions freely in words. It is not just love, experience, life and nature. It is the wholeness. It is beyond words, and just like art, where he paints the imaginary pictures of emotions on the canvas of life, words dance in the open sky of love. His poetic aura is filled with rhythms and ideas. One can easily flow in the rhythmic flow of his poetry, because it satisfies our soul, heart, and mind. His inspiration of poetry writing is like the great souls of poetic sensation Rumi, Hafiz, Wordsworth, and Keats. His soul is creative and creates the magic of words, as a poet he is an inspiration to others. To him poetry is a divine gift to this world that takes the readers into another world of

trance and beauty. He believes that the existing world around us tempts our souls to compose the verses to glorify Nature and its objects. The hummingbirds, echo of the wind, the music of flowing water in rivers, the noise of the sea tides, the eloquence of the night, the musk of flowers, the sunrise and the sunset and the serenity of the soul all have their own charms and divine music to tempt our mind to adore the Nature with beautiful words. While this world is filled with business and politics, Mazher's poetry adds the beautiful essence of romance to life. Everything what he sees is a poetry to him, as a poet he believe in it.

'Enchanting Verses of Love' plants seeds of compassion, prayers of peace, sunflowers of passion, aroma of sacred emotions, trees of happiness to console the purity of mind. This poetic sensation creates a world of enchanting dreams where words turn into charming rainbow that colors butterflies. Enchanting verses blend thoughts and transcend a reader to sweet pleasures. Enchanting verses rejuvenate and help to fight against the pain and strife, and enchant the soul with the fragrances of life.

FOREWORD

Mazher Hussain (Haraeen) is a poet of his own unique dimensions. His poetic sensation is very different from other poets. His poetry inspires me and many others as we read his enchanting poems. 'Enchanting Verses of Love' is his first book, I am honored to review it, I loved the way he uses his imaginations and creates a world of beauty in words. His words portray a picture of love on the blank canvass of reality as well as imaginations. His poems "A Prayer for Peace", "Mighty Season of Love" and "Ecstasy" are profound and unique in their own style and diction. In his poetry, there is a divine connection, spiritual harmony, and peace for the souls. His approach to the nature and natural aspects is supreme, the way he uses metaphors and imagery is truly amazing. In his poetry love is the basic theme, lovers hold the hands of imaginations and travel to the mirage of eternity. Mazher has also composed short

version of poems called Haiku. He sketches the picture of love and life in just few words to take the reader to another world of imagination where nothingness meets everything.

Dr. Feliz Ruiz

Prayer

O Lord of love

We pray to seek inspiration

Let us be faithful

As you are faithful to your promises

Bless us that heart to create harmony

As you are close to your people

Give us courage to help

Those who are in distress

As you sweep away the poverty and sadness

And wipe the tears from wet eyes

Bless us the light

From your sacred heavens

And illuminate our souls

So we can kindle the world

And shine good deeds

You are forgiving

Forgive us

As we are suffering
From the misery of sins
You are merciful
Bless us that divine touch
To heal our cries, pains and present ills
You are kind and generous
Lead us to the heavenly bliss
To the sanctuary of joy
Open the doors of eternity to us
O loving Lord
Your art is majestic.

Dance in Eloquence

O beloved,
Let me dance in meditation
The melody of your love is divine
Thousands of flowers are blossoming
In serenity of my soul
And I can hear the sounds
Of tempting dew drops in extreme silence
And the musk of jasmine
In the open sky of your love
The colors of enchanting imaginations
fetch the fascination of moon light
With your figure encircling me
Gazing until your eyes dwell with me
And until I feel you love me
let's tease the wires of eloquence
to play the harmonic song of love

and make a journey to celestial sanctum
where the arms of divine pleasures
hold us in everlasting peace.

From Ignorance to Enlightenment

O wanderer of light
Shrug off this mask of insecurity
Discard all you have acquired of being a narcissist
Don't get caught within yourself
And cling to the void
Your mind is hindered
This road heads nowhere
You are trapped and needlessly troubled
You are excessively attached to self
This stream of frailty never flow
Untangle your soul from the outward desires
And plant deep in the essence
the longings of peace, humanity and modesty
Return to the root
And find the meaning of your existence

Give yourself to others
To embrace the supreme majesty
Sit in the Caravan of humanity
Disappear into the lanes to meet hunger
Your thirst will be quenched
While you feed others the food of happiness
Set your mind free and lodge in emptiness
There is no anger or confusion
Set your journey to the farther lands
Crossing the harder roads
You will reach to the universal bridge
one instant of inner enlightenment
Will dispel the darkness
And light will derive you
To an open expanse
Where peace flows in tranquil harmony
Where soul caress the souls and meditate in divine
oneness
Where ego melts in the pot of purity
Light will illuminate your inner core
And your soul will be purified.

Spiritual Journey

I have been to the distant lands
I made spiritual journeys
Been to the temples of inspiration
To eat the food of knowledge
Wandered in the spheres
Of emptiness, singleness and liberation
Like a lonely bird in the sky
Then you hold my hand
In the open expanse of love
Took me to the mirage of eternity
Above the clouds to tranquil my sensation
And purge my soul
I bathed in an unpolluted lake
I wore the garments of light
And saw the miraculous figures
On the mystic curtain of the world
You lit the fire to enlighten my heart

I saw the splendor from the eyes of soul
And the work of eternity on the white canvas
The sun itself faded, illuminated the heart of the
universe
The entire cosmos turned into a Sea
Light of love rose up from the breasts of the earth
Songs of joy began
Lovers danced in the night
Angels or mortal beings?
In the clear moonlight
Imagery so divine, so beautiful
The mirror set before our eyes
We saw the unseen and merged in intimacy
We breathe in oneness
The meaning of our unity
And the purpose of the spiritual journey
Concealed when I reached there
to attain the ultimate desire of joy.

Devotee

I live in your presence

The moon-filled window of your soul invites stars

Set my mind free and let me dwell into the stream of
imagination

Let me see the holy mounts, sacred hills and visit divine
temples

Let my sensation dwell deep into your vision, hearing
the music of flowing streams

See the illusions and solve the mysteries

Each molecule of my being chants the divine hymns

Like a Sufi soul on the divine pilgrimage

Thy presence soothes my mind

There is no pain that harass me anymore

I abide in the sanctuary of enlightenment

Each moment engulfs compassion, and bears the fruits
of eternity

I'm purified since I bathed in the sacred waters
Thoughts of your presence had enlightened my mind
and heart in essence.

A Prayer for Peace

All glory to you, O omnipotent, to you alone, the most
high

Give us light, ray of peace and purity from the generous
skies and great splendor

We, children of earth are being tossed among the
squalls and gales

The wind of pride and jealousy blows us to the rocks of
tribulation

O beloved God, protect us, as we find no other shelter
for peace

We are sickened by the dangers of wars and terror

The loathsomeness of sadness and despair deprived our
souls

We mortal human beings can't escape from the fears of
sins and death

O divine Master, bless us the showers of peace from thy
infinite blessings

The heart of mother earth is dried, it quenches the thirst
from our bloodshed

Innocent souls are burned stupefied, dying with thirst,
hunger and pain

Some are weakly whimpered until they left bled to meet
the death

O, The Mightiest, earthly souls are longing for the
splendor to annihilate their insubstantial state

Peace and love are your traits, lit that fire to burn the
heart of the universe

Assail these countless groans to skies, and shower the
rain of happiness

Shed away this moonless night, and open the bright
light to ignite our inner core

O the Compassionate, the most Merciful, You are the
Ruler of the judgment day

It's you that we worship, and to you we appeal for help,
show the right way that leads to glory

O the Sacred one, teach us love, compassion and honor
Heal the wounded earth, and bless us that pure soul to
heal each other

O the holy One, fulfill our desires to see the peace, love
and contentment

Let's eradicate the evil, seeds of greed and lust from the
soul of mother earth

This tattered face of humanity wants to see the radiant
sunshine

Lift this darkness of terrorism away, and purify the
souls with the nectar of peace.

Yours Love

Yours Love

Divine

O beloved

in the mysticism

of a sacred heart

that feels and enjoys

your living presence.

A desire that arouses

from the depth

and embraces the light

it seeks that reunion.

A desire of 'burning'

in the fire of your passion

as utterly consumed

and the soul sanctified

in your intimacy.

In Your love

Soul finds the meaning
of existence in the living out
as deeply and fully
as possible
of ecstatic joys
and the service
to your majesty.

In Your love
the conceivable emotions
rage, sadness, pleading, longing
is fed into
and transformed
by this overwhelming passion
that answers and echoes
mysteriously
this passion is yours.

Thy Love
the compassionate
The Merciful
Soul worships
and appeals for help
from your Grace
You shower the rain

and quench the thirst
of the soul.

In Your love
Soul meets
the divine revelations
and finds the right.

Compassion

Love appears in nudity
The compassion of bewildered sky
Embraces the soul of earth
Eyes caress the eyes
The struggle to win the heart continues
Voluptuous desires take birth
From the oasis of hearts
To lit the twin flame
And this divine moment
Mesmerizes the soul of Nature
And writes another tale in the stars.

Enchanting Colors

Life takes birth from colors
In splendor of human emotions
When they merge into ecstatic joys
And paint themselves
Into marvels of Nature
Colors profuse in divine joy
Mesmerizing souls
In radiant, yellow and purple
Like the rainbow
That brings the freshness after showers
Overcoming sighs, sorrows and pains
Creating a sweet melody in the air
When Rada dances with Krishna
And sings the gay songs
Divine love behold their spirits
Soul caress the soul
To create a magic in essence

Colors cast the spells of joy
And transform the souls into magnificence
Lovers meet beloved to cultivate beauty.

Lost at Sea

The fireman
On the golden emerald
Singing the radiant songs
Of farewell
Waves swept beach
Singing a chorus
Initiates wondrous feelings
In this mutual harmony
Tides compose songs of distant lands
Chanting in multiple tunes
Dancing in rhythmic bliss
Bidding farewell in romantic melody
Clouds waving a castle of dreams
Rolling on the celestial sphere
In this magic moment of divine change
Nature nurtures the soul of joy
Twilight awaits on seashore

To unfold the mystery of engulfing passions
The fireman wearing the garments
Of pragmatic cosmos
Decorate the ethereal desires
Craving to be a wave
Figuring salvation
On the mane of loneliness
Tired by the day's labor
With faint light lost at Sea.

Wine of Dreams

O beloved,
Let me drink
From the pots of your eyes
The wine of dreams
In intoxication
Of your lips
Let me get lost
In the far lands
And hide
From the eyes of this world
To enrich the thirst
Of my yearning soul.

Heart of a poet

I pen my emotional heart
the ink of blood spreads on canvas
River of words flows eternally.

An Acrostic poem

"HARAEEN"

He was a pilgrim on his way to the temple of love
Across the rivers, that flow to the eternal isle
Reunited his palms with the palms of love
Advanced to the valleys of mysterious love
Each of his breath was perfumed from the essence of
rich gardens
Eternity called his name to immortalized his soul
Nourished his body and enlightened his soul in
sacredness.

In the Eyes of Inhalation

You and I fall in the divine arms of love
The eternity beholds our souls
As we dwell deep in the eyes of inhalation
And see how night shines as the day
Together we fall on the bed of roses
Wearing the blanket of desires
We lodge in the serenity of villages
Moon light chases our footsteps, thus finds us not
We hide in the fragrances of Jasmine
Love guides us, and perfumes our souls
We travel to the mirage of light
From emptiness to fulfillment.

Flowers Bloom

In serenity of dark night

Flowers bloom to enlighten the sacred soul

Soul merged in the light of divine heavens.

Dream Coming True

O beloved,
the ways are perfumed and intoxicated
and desires got the wings
to fly in the open sky of ecstasy
deep in the heart, love takes birth
and the beat of heart is singing your name
Hurrah! The dream is coming true.

Morning song

As the balmy sunlight warms the bodies of buds,
and excites them to bloom with passion
a desire wearing the dress of ecstasy
aroused from the inner core of my soul,
and secretly transforms into a deep passion.
Garden of my heart perfumed these newly born
emotions
and I sing the song of you and I,
yes We Are,
I love us with every breath,
every particle of our being is inseparable.
I dance in this divine symphony of togetherness,
and I color myself
in colors of divine harmony.

Human Soul

You human soul,
you made up of a divine spirit.
This spirit is not easily satisfied.
Your creation is not ordinary
you storm the firmament
and scales the heavens.
You yearn for the spirit of energy
that Spirit drives heavens.
Everything in the world grows green
flourishes and attains the nourishment
yet your soul is never satisfied.
It presses on
deeper and deeper into the vortex
further and further into the whirlpool,
the primary source
in which the Spirit has its origin.

This soul seeks the meanings
and Nature leads this soul into the desert
into the wilderness and solitudes of divinity.

Glory of Love

O beloved,
Let me kneel down
And bestow my sacred love
As an offering to you
The compassion of love persuades my soul
To dwell into a secluded world
And live in your presence
Where ecstasy of divine love
Rejuvenates the sacred souls
This frenzy is driving me crazy
My heart is roaming like a lunatic
In the temple of your love
Yearning to pull the strings
And tease the exotic symphony
The limbs of emotions are excited
Desires are longing to submerge
In your passions

A fantasy to caress
The sensuous lips of soft clouds
In the heart of celestial sanctum
And float into divine waters
Light leads my ways to eternal shorelines
To meet the glory of love.

Ecstatic Touch

O beloved,
I will put my hand
On thy soul
To touch the tranquil motion
Of professing ecstasy
That sprouts thousands of flowers
In the heart of beauty
To perfume the inner core
The pounding of your heart
Sings divine hymns
And compassionate music
Compose a rhythmic flow
Emotions caress emotions
In divine ecstatic thrill
I hold thy hand
The whole universe encircles us
While we move our feet

In charismatic bliss
The air strokes lift our souls
As we rise high and high
Above the clouds we dance
Among the fairies and nymphs
Clouds kiss the bosom of sky
Nature behold our passions
And enlighten the hearts
With a twin flame
Burning in the oil of desires
Radiant, passionate and divine
Our souls intervene
In a holy union of purity.

Soul of the Sky

Soul of the sky
Fumed
In the intoxication of poesy
Ice droplets sing
a hymn of joy
Words dance in celestial sanctum
stimulating the soul of Nature
Poetic sensation overflows
in the heart of a poet
like a river of ecstasy.

Heart and Soul

Merged

In the serenity of love

Heart and Soul

One is insane

other drunk.

Mighty Season of Love

Beloved Spring,
You 'the mightiest'
You set out a nameless glory
On the bosom of cosmos
With vintage luscious kiss
On the hopeless
Tattered face of earth
Destroyed and frayed bodies of trees
Longed for your magnificent touch
Waited long for your splendor
To annihilate their transitory state.
Icy pale eyes of winter
Whimpered the soul of earth
Encircled by the snow fall passion
Flowers of love yearned to profuse
Freesia and ambrosia
Blossom softly

Opening to the light
Innocence of flowers sings your songs.
In you, Nature finds the greatest miracles
Deserts and dunes
Desire to taste
Your pleasant tongue
And rejuvenate their souls
Like a summer rain wet their bosom with a shower of
ecstatic bliss
Heart hovers
On the sanctum of joy
Quivering a blur
Humming of birds
When they open up their wings
To warm their skin
Whirring wings flatter
In the open sky of love
Singing the love songs
Flashing colors
Stunning vision
Nature taste virgin's freshness.
O Queen of greenery
You merge in the lush green meadows

With a solid trust
To fulfill the promises
Roaming in the valley
Of mystic servitude
Cascades the freshness of hearts
Suffused nectar
To ripen the souls
Your murmurs chasing
Eyes of the Sun
Wearing a mask of trivial dreams
Shimmering on the misty hills
Your relentless faith
Soothes the souls
You sow the seeds of love
In the heart of pragmatic earth
Illuminating the moon's light
Blessing strength to the sunlight
That melts the hearts of daydreams
Hundred thousand times more bright
yet ever-undefined
you bring tranquility
Rhythm and rhymes
Orgasmic zenith

a drift on the milky breast of oceans
your songs
On Nature's lips
as you write wondrous tales
in the heart of stars.

Intoxication mesmerizes souls

Love sits as a lustful bird on the flowery breasts of night
Lovers in the musk of Jasmine starve for the bliss
They lit a twin-flame in the mystery of darkness
There pounding hearts engulfs in the melody of love
When the they pull the strings of emotions
Swaying the dark sensation in high and low notes
Desiring each other, and desires of two come together
In this mutual harmony lovers spreads the ink on the
petals of water
Intoxication migrates from soul to soul
Waves of hallucination write their name on the face of
sky
Love sow divine seeds in the fabric of their being
From the marvels of fantasy they lean forth to hear each
other's call
Through love they see the pseudo layers of overflowing
ecstasy

Painted in every form and color to decorate the moment
Images of sentiments are inscribed on the stars
In love they taste every flavor that proclaims their
hunger
Lovers lay on the bed of roses and forget their beings
Caress and fondle the spirit of the holy bliss
Love take them to the sanctuary of unseen murmurs
They drink the droplets of mesmerizing dew
And float in the bottomless tides of ecstatic pleasures
Lovers play hide and seek in the caves of black night
Shimmer under the purple tents in deep peace
Like they drank the wine vault of love
Breeding life, converging and nourishing the Jasmine
flowers
Then love surrenders in the arms of lovers, melt them in
the purgatory pot
Empowering the glow of this mystic fusion and divine
reunion
In the profound glow of full moon tranquility
Lovers made this transformation
From emptiness to fulfillment.

Beloved and I

I'm the reflection in beloved's mirror
As the image and mirror are one
Framed in the intimacy of divine desires
This oneness has sown the seeds of compassion into my
being
I wade incessantly your love for the union in paradise
I'm the only guest in your temporal inn
The only fire-winged star gazing your light
To be filled and enlightened
Seizing my passion in your love
Swaying the garments of life
And shimmering in divine reunion
Beyond the expanse, my soul sings beloved's songs
In this holy bliss we breathe musk in eternity
What a joy, beloved and I burn as the full moon
In the glory of ecstatic melodies
Entwined in the sameness, one love in the harmony of

zenith

What a bliss, beloved and I dancing in an eternal ecstasy

In the paradise of lovers, vibrant and fresh

Mesmerized by drunkenness and perfumed deep in

essence

Without boredom and tiredness

Eyes in eyes, as we encircled by the spirits

High into the peak of heavens

We touch the zest of eternal wholeness of love.

Dancing in Mutual Harmony

Clouds glide in an open expanse

Breeze caress the soul of love

Lovers breathe in the silvery cluster of holy bliss

Nature sprinkles the divine showers

and wet bodies of lovers dance in mutual harmony.

Verses of Poetry in the Stars

In the horizon of my odes
your thoughts glow in ecstatic joy
Words caress words and dance in joyous mood
Verses of Posey are written in the stars.

The composition of love

Queen of love in the murmurs of enchanting April
Wearing the dress of purple desires
In her orchard sanctum, mesmerized by the musky
Spring
Stands on the graffiti of emotions
Sparkling eyes full of dreams
Whitish skin, brownish hair
Lips invite the pure wine to nurture the beauty
Curled posture, dwelling in the images of unspoken love
A paragon of divine beauty, in the veil of hidden
sentiments
Wrapped in a gown of eloquence
Adorned by the perfume of scattered flowers
The eloquence weaves the tapestry of joy
Her compassion is embroidered with the beads of
sensation
Soft, plausible, so subtle, a dream in a dream

That produces optimism in the serenity of night
A portrait of love, longing to paint desires in the sky
And plant the seeds of freshness in the garden of love
Freesia and Ambrosia sprout to perfume her soul
In the oasis of heart with relentless faith
She nourishes the moment of poetic inspiration
And the soul of the poet inscribe the verses of love.

Tale of Love

In divine harmony

Lovers narrate the tale of love

Words create a symphony of togetherness

their souls long to overflow and dance in the air

above the clouds to touch the tranquil motions

Bliss is on its holy feet to embrace the lovers

Mesmerized and intoxicated in divine fantasies

they sing the songs of ecstasy.

Mystic Love

Love sits as a blushful bird,
In the reign of heart
Secret-most
Hidden
In thousands veils
Of engulfing passions
Vibrant and overflowing
Yet never shows
Its face open
To all who
Approach its region
It remains mystic.

I Live in Your Breath

O lover,

I live in thy breath

The musk of your divine breath

Is enough to enlighten the inner core

I'm a life in your life

Let me exist in the sacredness of your immortal heart

And join you in the realm of light

There, eternity leads souls

To a noble throne of intimacy, dignity and grace.

Infinite World

Let's meet that eternal power
Keeping ignominious
Open to the world
The knowledge of glories
A world of infinity
Where heavens attain unity
Nobility is rooted in humility
The ways are illuminated
Let's enhance the clarity.

On the Bed of Desires

By night
in glowing ecstasy
on the bed of desires
I met her
whom my soul loves
we loved each other
yet in the morning
I found her not.

Battle of Emotions

When the stars of your eyes
Blinked in mine
I loved that caressing battle
The nakedness of our emotions
Turned the pale into radiant
Nothing can top those sheer pleasures
The time was captured in that moment
I couldn't resist your gaze
As I was a pilgrim on divine offerings
To the holy temple of love.

In Divine Arms of Love

You and I fall in the divine arms of love
The eternity behold our souls
As we dwell deep in the eyes of inhalation
And see how night shines as the day
Together we fall on the bed of roses
Wearing the blanket of desires
We lodge in the serenity of villages
Moon light chases our footsteps, thus finds us not
We hide in the fragrances of Jasmine
Love guides us, and perfumes our souls
We travel to the mirage of light
From emptiness to fulfillment.

Acknowledgment

O yearning spirit of love

Burn your soul

In the majesty of blaze

To acknowledge

How can a moth flee fire

Dwell deep into that compassion

To feel the ultimate desire of fire

Is it not that union which we desire?

The Sacredness of the Woman

O bride of heavens

Your love is infinite and inimitable

It's you

Giving birth to life

From the sacred bosom

O Queen of Earth

You illuminates the dark corners

Nourishes the soil

And feed the souls

From the treasure-store

Through you

O sacred spirit

There are joys on the faces of infants

When they utter the words

Of unspoken and mystic languages

There are the songs of innocence

Songs of wisdom and maturity

Ecstasy overflows in youth
The honor and pride of the man
Because of you
O goddess of love
You honor the human beings
An ever-flowing spirit
They sparkle in the stars
Emanating light from the sky
Your spark is the holy spark
You crown your sons and daughters
When they merge in divine reunion
For the sake of heavens
O Soul of eternal bliss
Your intentions of creation are divine
You suffer pains and anxieties
In this spiritual fulfillment
In my songs, I will remember you.

An Eternal Course

The whole in the wholeness
The heavens and the earth
Belong to each other
Following the ways of divine light
In firmament
Engaged in mutual harmony
They grew apart
Yet merged in oneness
It's a two-fold story
Life takes birth from the death
Beauty ever-flows in spirits
Radiant shines the sense of grandeur
Playfulness in a divine bliss
A comprehension, that directs everything
Darkness and light
Good and bad
In agreement and arguments

Different, yet alike
An Unseen
Moralizing the immortals
A divine myth
Passing beyond the thresholds
Knowing the day and night
Mysteries shrouded in darkness
And revelations of knowledge
A backward- turning connection
Like a bow and a lyre
Straight and twisted
Path of the casting-combs
All experience the same journey
The queen Eternity playing a role
Feeding everything
That's in the world of divine reunion.

Restoration of the Soul

O love,
Your glory restored my soul
From the darkness of wicked nights
You shined like a bright day in my being
In your divine light I ascend up into heavens
Heavens of eternal bliss
I sang the divine hymns
Learned the art of contentment
Obeyed to your commandments
Your flashes enlighten the eyes of my soul
I dwell therein
Resting in green pastures
To embrace the essence of beauty
Meeting myself on the face of waters
Kissing the invigorating joy
Sealing upon your heart

I closed my eyes
And seal upon your arms
To taste the comfort of eternity.

Exotic Tale of Love

Let me hear the sounds of silence
From the essence of tranquility
And reread the mystery of love
Where the soul is merged
In a world of divine serenity
Let me tease the strings of violin
And tempt the virginity of time
To narrate another exotic tale.

Nature in divine moods

O friend of love

Let's sing the songs of Nature

Together in divine harmony

Songs of the day and night

When they play a game of hide and seek

Darkness chase the steps of light

In the music of midnight trance

Both the sun and the moon

Come out from their inmost chambers

And light their divine lamps

To enlighten the soul of Nature

Let's sing the songs of oceans

When they flow with passion

Waves are at their dancing feet

Tides caress the bodies of tides

To create a symphony of heart beat

Floating in the secrecy of storms

With the whirlwind that is born
From the chest of clouds
Finding their way to the celestial sanctum
To immersed in oneness
The great bliss that transcends
The songs of pleasures and pain
Let's sing the songs of divine gardens
Where purple flowers of ecstasy
bloom with the gust
In the garden of naked lust
Yearn to lick the filament
From the rich leaves of desire
And drink the red wine
From the lips of groomed plum
Which is growing silently
In the divine orchard of fascination
Nature dances in the garden of love
Mesmerized in the musk of Jasmine
Revealing the secrets of joy
Passing beyond the threshold
Into the expanse of enlightenment.

Rainbow

O beloved,
You and I
like the rainbow
born from
The bosom of the sky
Wearing the garments
Of divine light
Hands in hands
We dance above the clouds
on the celestial sphere
of wild ecstasy
swinging with passions
like the strings of violin
to plant the seeds of love
chasing eyes of the sun
as the fallen comrades
linger on the aerial light

and shimmering down
in divine cathedral
To merge into the bliss
Of divine reunion.

Gratitude

O Master,
I bestowed to your serenity
Since you have sown
The seeds of inspiration
Into my blank consciousness
You guided me to the light
You shed the mist of shadows
And showered the rain of wisdom
You took me from my dreams
And put the knowledge of love in my heart
You nourished every fiber of my being
I learned the art of eloquence
From the jasmine at midnight
I found the real in unreal
I heard the unheard
I have been to the holy lands
I met myself at the edge

And we danced together
In divine harmony
I melted like ice on glaciers
Till I dwell deep into the passion of seas
And I behold this world
In the depth of my eyes
A world that brings forth different dimensions
Every direction leads to You
I inhale and exhale your love
Every breath utters your name only.

Divine Reunion

O beloved,
In the honor of love
You and I
Entered into the divine realm
We devoured our compassion
To form a world of eternal bliss
Like the silkworms weaving a house
From the narrow, winding tight
And burn in the desires of heart
For the supremacy of love
We caged ourselves in oneness
Making our acts as divine offerings
So pure, detached, and profound
Like the humble instruments
Playing the music of harmony
In sacred shrine of holy Muse
There we hide and meditate

In the depths of self-consciousness
To enter into the cosmos of infinity
Our souls swallowed each other
Like a sweet dish
To attain the pleasures of eternity.

Gypsy

Don't waste your time
Finding me in the lanes of your village
O wandering soul
I am a gypsy,
My sanctuary is the whole world

Divine Communication

O beloved,
These mesmerizing words
Of love Poetry
Flow like a river of romance
From the core of thy heart
To caress the serenity of my heart
And this divine communication continues.

Soul's Songs

I sing thy songs

My soul

When I sit in your presence

Under the shelter of own consciousness

And strive for fierce heights

In the journey of discovery

To conceive profound insights

Soul utters spiritual words

In the rhythm of holy joy

Ascends with the verses of reunion

Clinging to whole being of my own

With a purpose

Like a soul enters in the body

With the power and instruments

To enlighten the depths

The songs of fulfillment

Emanated from the mystery

Songs sowing the seeds
Seeds of divine fruits
of divine bliss
From the holy essence of eternity
Songs of tranquility and tender love
The music probing in the spirit
To open the doors of wisdom
O soul I sing thy songs
Of conscience and spiritual fulfillment.

Your Love Enliven Me

And my soul
Chained in the vibes
Of your commandments
To obey only your call
Mesmerized by the holy bliss
And adorned in your fragrances
O beloved
Don't unleash this mystic spirit
Let your love enliven me.

Curious Eyes of the Moon

Curious eyes of moon
Watching the lovers
Kissing and cuddling
Another Night
Surrendered its virginity
To the sacredness of love.

Sacred Temple

O Soul mate,
Let's go to the temple
Your own home
Scared as infant's breath
Holy as saint's prayer
The temple of bliss
Where you meet yourself
And bestow your compassion.

Your Art so Confusing

O King of my heart

Thy art

So confusing

Put my heart

In precarious doubts sometimes.

Ray of Light

You are a ray of glowing sensation
Your fluorescence
Penetrated into my being
And caged me
In a frenzy of your love
I live in your presence
Knowing your love for me
I can't hide from your eyes
Through your eyes
I see love
Painted in every form of color
When you gaze at me
Without a blink
Your eyes invite me
To come and dwell in you
And you in me
Your whispers

Knock the closed doors
I lean forth to obey your call
And open the doors for you
I can't resist
Can't escape from your glare
Your love is too strong
You caught me and wounded me
Through mesmerizing fragrances
I wasn't afraid
To give you my soul
And now I love this divine reunion
You make me one with you
I can no longer find myself
You love without limits
It starts from infinity
And ends in eternity
You are a ray of divine light
beautiful, radiant with great splendor
You illuminated
The dark corners of my being
In your gleam
I made the journeys
Doubt to Faith

Sadness to joy

I learn the art of love

And to be loved.

Hallucination

I am drowned in the depth of beloved's eyes
To paint my dreams in your colors
And see the unseen
Through the mirror of hallucinations
Where images are as transparent
As the moon in a bright sky
In some clear lake reflected
Serene as the Sufi's prayer
In essence
The images are imprinted
On the white paper
With the ink of romance
I live in the tranquility of sensation
My thoughts, speech and actions are calm
And dwell in translucent realm of divine serenity.

Haiku

"Frantic Spirit"

In shadowy memories

Soul follows the mysterious steps

Of frantic spirits.

Your love is My Inspiration

O beloved,
You are
The lightening lamp of my soul
That illuminates
The hollow organs of my thoughts
When I dwell deep
Into the valley of mystic inspiration
To find the words
And pen
The odes of love.

You are my Valentine

O beloved
You are my Valentine
You enlightened
And shine
Like the Zohar of the sky
You sow a seed of glory
Your love is interwoven
Into the fabric of my being
Deep within
Your spark gushes a glow
Your flashes are flashes of fire
You kindled
A most vehement flame
None can quench this thirst
But you
O beloved
My soul leans forth

To hear your call
From the marvel of fantasy
My beloved valentine
Your art is majestic
My breath is trapped in your spurts
Now we breathe the same scent
To perfume our inner cores
When we met
To kiss the soul of love
in mystic fusion
That scintillating desire
Derived us crazy
Under the shelter of ecstasy
O beloved
Since that
my pulsing heart
Is beating the drums of your love.

Dilemma of Night

Going through a passage
Of another night
Lonesome and frail surroundings
Casting the magic of disbelief
Under this dense shadowy shelter
Soul wears the blanket of desires
And surrender
To this dismal patch of midnight
The fountain of oblivious longings
Is splashing the water of memories
The bubble of separation bursts
And makes my heart ache again
Sleepless eyes
Wearing the pseudo mask of dreams
are yearning to have a glance
Heart is thriving to make that connection
And sing the chorus of togetherness

O moment of joy

My soul is brewing

Come back.

Haiku

Floating desires
In the river of inhalation
Embrace eternity.

Bond of Love

How fragile is
the bond of love
yet it connects
The souls in divine harmony.

In Your Majesty

I walk in your world
O Holy Spirit
A True world
Seamless being-in-place
The silence within the silence
Where
You create the infinite
in the grab of the finite
You unfold the time and space
A world
Where humanity is filled
With compassion
Speak truth, follow justice
And love in peace
Where
A single moment of inner peace
Is a moment of eternity

Everything is caught in oneness
Divine essence
In heavens and on earth
I kneel down
In the chamber
To understand
The hidden mysteries
Of my own creation
In this glory of wisdom
I serve you with the gratitude
And I give you my humble love
O Holy Spirit of love
Lay your hand upon me.

Inspiration

O Muse of love,
My heart is swinging
Like the strings of violin
Singing the sensual notes
In the valley of dreams
Roaming into the cascade
Of melodic servitude
Yet the shadowy twilight
Stresses the trivial mask
To put my soul
In precarious doubts
I seek the inspiration
O Poetic Spirit
shed this mist away
Let my soul see the light
And dwell
In the eyes of beholder.

Last part of conversation with you

Hareem to beloved:
Sweet dreams in the world of love
where my soul leans forth
To kiss your soul
In divine symphony
to wake the beauty of night.
Let me close my eyes
and fall in love
with the divine light
of your mystic presence.
your love is like
the Jasmine at night
Its eloquence perfumes my soul
and I dissolve my virginity
In your mystic fusion every night.

Let this moment get trap
In the length of years
So you may not leave me
even for a second
and I can enjoy
Your divine presence
even with close eyes
Till the eternity holds me
In its divine arms.

Yearnings

O beloved,
Let us plunge deep
Into the river of passion
Where
Ecstasy intervenes
And penetrates deep into
the skin of lovers
Where
Soul caress the soul
To hear the whispers
And music of sultry breath
Of beloved's
Where
Twin flames connect
In the majesty of light,
Eyes follow the eyes
From the veil of mystery

There

Time writes a tale

in the stars.

A Touch of Reality

Let me drink
From the eyes of inhalation
Where dreams wander
In mystic images
To give them
A touch of reality.

Taste of love

O beloved,
It was an arousal of sensation
A current
Ran through my whole being
The time
When
Your lips embraced mine
Gently
You kissed me
To awake
The passions
In that divine reunion
Your breath reminded me
The smell of eternity
Stubble, and tickling,
Breath of luscious vintage,
Lips as the rose petals,

Moist in white jasmine,
In the dark and lusty,
Night of blossoming love
The aroma of your body
Derived me
To dwell
In the sanctuary
Of heavenly bliss.
A silken touch
Mesmerized me
When my fingers
Caressed your limbs
Olive skin, ocean of passion,
A forest of wild ecstasy,
Blue eyes, love sprinkling,
The drops of summer rain
Pure as the rising sun,
To taste the vintage
Of your aroma
When my tongue
Plunge deep
To meet
Your murmuring tongue

An ecstasy
Pleasant to my taste
And there
Burning bodies of desert dunes
Thriving for each other
Arms encircling around
Soul caress the soul
Lips to ears, lips to nose
Around the neck and eyes
Face muzzled to face
Love kissing the love
Never stopped
Again and again
To attain the fruits of eternity.

Ecstasy speaks

Ecstasy narrates the story of night
Where passion meets the passion
When bodies merge into a soul
And breath communicates to breath
To formulate a glowing film of memories
The smooth air strokes the hearts
And the lusty stars utter erotic words
Of charms and burning passions
Thirsty souls quench the thirst
From this magical unity of time
The flowers of love
Produce sensual scent of life
That perfumes the mind of lovers.

Oasis of Heart

Oasis of heart

Oozing the joys

With relentless faith

In the temple of love.

The Pillow of God's Love

Don't let your thoughts disturb your dreams
When you hold the pillow of God's love,
Your heart is a moon
Let it shine
Not overwhelmed
By the day's complexities.
Fall in love with nature,
Rest like a baby
Who enjoys the comfort
Of mother's warm lap,
And hear the sweet music
When she sings lullabies
That takes you to another world
Where you dance like a Sufi
Among angels and fairies
In a divine flow
Swinging in the holy cradle
In the paradise of love and peace.

Peer of Soul

And when the evening appeared
Searching my footsteps
On the pavements of loneliness
Twilight told her
Find him not in empty streets
His soul is filled with the nectar of love
He met the peer of his soul
In his own conscience.

Come Back

Just wondering
Why the time is so cruel,
How life is playing games
Considering me a child of fate
Who is unaware
How to open this knot
That has been tied
By the thread of unconsciousness
Why is I betrayed
by the hands of destiny
What I have to say
What I have to do
Know nothing!
Can't complain
Can't be demanding
As I used to be
At the verge of desires

Remembering the past
Which has been lost
Somewhere
In the mist
a hand I used to hold
A hand of comfort
A heart of love
Where is he?
Why I am alone?
I'm searching your signs
Come back
Bring me back to life.

Souls Mingled Spiritually

O beloved,
Your spirit is mingled spiritually
With mine
What touches your heart
Touches my heart.

Insane in the Sanity of your love

O beloved,
I'm yearning to fly
In the sky of love,
Wind of ecstatic desires
Tempt my soul to sing the songs
Yet I am detained
In the reign of your love,
My thoughts are seized
In the mystery of images
Imaginations are blurred
Oh! I am insane
In the sanity of your love.

Contentment

I have never felt this comfort and peace
And this soul satisfaction,
You gave me the pleasures of romance
And I touch the amber of divine ecstasy
I met the murmuring bliss of craziness
And have danced with the stars
Your breath intervened in mine
I have made my journeys
My heart is filled with beautiful images.

Romantic Spree

O beloved,
Our souls are gathered
Under the shelter
Of divine love
To taste the nectar
Of eternity
Let's sit here
you and me,
on the terrace of love
under the cool evening sky
cuddling close to each other.
Let's recite the verses of divine unity,
The poems of harmony written
on the colorful sheet of ecstasy
With the eternal ink of romance.

I Am In Love with You

I am hopelessly in love with you my lover
I have drunk love's poison in divine realms
The sky of reality wants to bring me back
But it is my heart that had traveled to reign of madness.

In Divine Orchard

In divine orchard
I build the castle of love
Where wild ecstasy roams
In the shadow of memories
Eyes of time gaze the beauty
And thoughts surrender
In the arms of eternity.

Searching for you

Lift my soul up
Shed this vague mist
And show me
The light of love.
My angel,
I am searching for you
In the deserted
Land of my heart.

Love in Joyful Bliss

I saw the love
In joyful bliss
Flickering in divine rain
A blessed drop stepped
On the silvery breast
The crazy sky paid
The emotional tribute
Holding the breathe
The air longs to kiss
That scintillating drop
Whispers all around.

Divine Bond

Separate me not from thy arms
Let the eternity rule our lives,
The time is yearning to write
Another tale of love.

A Moment of Happiness

A moment of happiness
You and I sitting on the veranda
Apparently two, but one in soul
You and I
We feel the flowing water of life here
You and I, with the garden's beauty
and the birds singing
The stars will be watching us
and we will show them
What it is to be a thin crescent moon
We're unfolding together
Like the sacredness
Of the Lotus blossom
you stir up such fire in me
all consuming
the flames rising higher and higher
until I can't resist
And consumed in the lustful flames of desires.

You Comfort My Soul

O beloved,

Your kiss will be my very first kiss blessed by divine
powers

It will taste like the first melting snow
from the Mountain peaks to run as spring awakens

Fresh and full of life

Your breath, a cool breeze before a rain

Your touch, the energy of lighting

Your eyes, into eternity

Your voice, captivating

Your love, rolling thunder

Your smile, rainbows

Your scent, a divine joy

Your creation, an image of love

Your love, is an eternal bliss

I am weak from grief

my solstice is in you

And you are divine
Hold me my love
so I can gently fall asleep in your arms
Shelter me from fears and comfort me
In the warmth of your heart.

Kiss My Tear Away

Although, my heart is darkened by grief
springs forth unbound-less joy
to know it will be in divine grace
I am grateful
No greater gift would please me so
Let me cry and mourn
Catch my lamentations
Place them in a vial to wear around your neck
For I seek comfort in you my love
Kiss my tears away
let me feel your sweet embrace of comfort
Rain of love is pouring on the yearning bosom of earth
and all the desires are blooming like flowers
I have imprinted your beautiful face into me
And I dissolved myself into you.
O beloved,

Now we are connected
physically, mentally, and spiritually.

In the Palace of Love

O beloved,
Let's sit in our palace of love
Where we can nourish ourselves
in the shower of ecstasy
From the corner of love beside the jasmine
viewing the full moon each month.
In this sacred spot
only silver and white fragrant flowers
which come alive with the light of the full moon
You teased the limbs of ecstasy
Like the strings of violin
Played the music of love
It's you beloved,
Who came from the heavens
To enlighten the inner core of my soul
You are the vision of my eyes
And the beat of my heart.

Holy Sparks

All day long,
the enlightening fire surrounded the heart
The soul laid on the carpet of ecstasy
and saw the holy sparks
rising from the burning passion
Life caressed life and overwhelmed the light
The moment trembled and revealed the truth
O, soul was intending to say more
but obeyed the call of silence.

Queen of Love

It is She, who nourished me
From her treasure-store.
Queen of Love,
Danced with me
Over soft jasmine flowers
In the ecstasy of youth.
Now in all my songs
I shall remember you.

Serenity of Divine Love

O beloved,
Let me drink
The pure wine
From the depth of your eyes
And dwell deep
Into the serenity of divine love.

The flame of Passion

Let me dance
In the symphony
Of divine joy
With the rhythm
Of throbbing heart
Which summons
My beloved's name
With each moving breath
Thy love like a fire
That in-lighten
The flame of passion
Inside my being
I move in the circle
Of your infinite love
From sunrise to sunset
And in the silence of dark
When all eyes close.

Come Home

Come home before I close my eyes
O beloved,
This treacherous darkness
Charmed the spells
Over the innocent soul of lonely sky;
Light of hope is fading in gloomy shadows
Soul of love sheds the tears
When it dwells in the river of memories
Where you and I
sang the songs of togetherness
I have enough of this carelessness
Come home, O beloved
Before I sleep tonight.

Waiting for Divine Call

I lost myself in that mystic haze
Where my soul is roaming
In the circle of memories
waiting for your divine call
Come to me,
O Soul mate
Let's embrace each other
Like we never been departed
Your soul and my soul, O master
as they are old friends
Living in the eternity of love.

Soulful Connection

O beloved,
Your heart is an ocean
Just close your eyes,
And feel the depth of my love
There is a connection
Soul to soul
Open the window
Dwell into this romantic spree
Dance with the angels
In the paradise of ecstasy,
And let your heart beat
The drums of love.

I Hold the Hand of Love

I hold the hand of love
While I walk on the eternal shorelines
To conquer the reigns of beauty.
Let my serene art dance
With the mystic nymphs
In the air of silence
Where soul caresses the soul
And divine beauty
Holds the serene breath.

Mirage of Eternity

O beloved,
You and I
Like the twinkling stars
emerged in the eloquence
of the serenity of dark night.
Light of the moon
is chasing our footsteps
as we take a flight
to the mirage of eternity.

Need My Muse

Worn out,
From the day's labor.
Need my muse
Whose art is marvelous
let me dwell in your presence
To rejoice my soul
Love is longing for the love
To stimulate the heart of life.

Door of My Heart is Open

And come to me
O beloved,
When all doors are closed.
The door of my heart
Is open forever.
You don't know,
O love of my life
My soul is dancing
In the symphony of your love.
My heart is beating the drums
Of your name
In the joys of divine ecstasy.

Poetic Sensation

Let us sit here,
you and me,
On the terrace of love
Under the cool evening sky
Huddling close to each other.
O beloved,
Let us read the divine verses
Poetic sensation is vibrating
From the scintillating twigs of desires,
And words are merged in divine ecstasy
Let's sing this divine sonnet of love
In the harmonic tune of passions.

A Fountain of Love

You are a fountain
A shooting labyrinth
And I am the shallow body
You tempted the dignity
When I was indulged
Like the bare marvel
Of extreme sensuality
Hanging with the breath
On the altar of fantasy
There the soul and body
Connected to an emerging glory
Your presence is interwoven
In the fabric of my being.

Light of Love

The light of Love

From the mistral of heavens

Appears in the cozy retreat of eloquence

To illuminate the core of my silent thoughts.

Flashes of Stimulation

Night flies in the flashes of stimulation like a restless bat
Dark are the ways and blind is my sight
Sleep is hovering like a nightmare
While nature is mystifying another magic.

The Book of Own self

O wandering soul,
Read the book of your own self
Don't mingle your stray mind
With the frivolous thoughts
Dwell deep into this divine world
Of your own consciousness
I know there is a gold mine in you
With the wonderment of precious gifts
To beautify and amuse your soul
Kiss the unreal to fulfill yourself
Cherish the unseen murmur
Which is yet untouched.

Let's Sail to Eternity

Dwell into the ocean of my love
O beloved,
And let us Sail
With the boat of compassion
To that divine isle
griefless and serene
where eternity embraces the souls.

Valley of Love

The valley of love
Summons the souls
To come and attain
The pure nectar of love
That sprouts from
The gardens of eternity
Where souls meditate for the union of life
when their yearnings get intense,
A divine presence appears on earth
A bright light shines and spreads around the place
where the meditators are sitting.
Soul welcomes the soul
with words that force their hearts
to calm the mind and bring joy.
Then the minds link and make connections.
In this harmony they speak the words
that excite desires, love and passion.
This union is holy and pure.

Fascination

O beloved,
The silky curls of your hair
Excite the mind of poet
And he swings the verses of love
By falling deep in exotic sensation
Words caress the beauty
When the fascination appears
From divine sources.

Haiku

"LOVE & SOUL"

When the whole world sleeps,
Mystic spirits open their eyes
Divine lovers communicates.

Poetry Abides Forever

Poetry abides in souls as an everlasting charm
From the heart of a poet words flow like a river to excite
emotions
Poets concrete translucent state of imagination
In the horizon of odes a poet's thoughts glow in ecstasy
Words caress words and dance in joyous mood
Verses of poetry imprint images in the stars
Blood of poets turns into flowing ink
When they paint imagination on the canvas of life
Souls convey a message to souls in words
Poets bestow compassion and express experiences,
feelings and sacred emotions
Lyrics symbolize heart beat to give background music
When we chant the verses in eloquence to rejoice our
souls
Poetry is a holy bliss that puts life into dead objects
An artist ignites a fire in soul

The unheard music of poetic sensation is mesmerizing
In this soulful intermingling of divine passions
Words float and create a symphony, tides caress the
soul of tides
Through poetry a heart travels in fascination
Words become a prayer, with gratitude and divine
offerings
Imaginations build a castle or a sanctuary in heavens
Where serenity and peace embrace the lovers.

THE ENCHANTING WORDS

Plato advocates the idea that poets have to be banished from his Utopian state. He thinks that spiritual clash which is inherent in poetry, weakens our logic and reason. Poetry is an evocative art. A poet produces poetic effect merging his feelings and thoughts in a distinctive manner, style and rhythm. This poetic effect, as it is mingled with intensity of passion, allures the reader. Poetry is an evocative art. A poet produces poetic effect merging his feelings and thoughts in a distinctive manner, style and rhythm. This poetic effect, as it is mingled with intensity of passion, allures the reader.

Mazher Hussain, being a genuine poet, highlights the amazing charm and mesmerising effect of poetry in his poem "Poetry Abides Forever":

“Words caress words and dance in joyous mood

Verses of poetry imprint images in the stars

Blood of poets turns into flowing ink”

and

“Lyrics symbolize heart-beat to give background music”

“Poetry is a holy bliss that puts life into dead objects

An artist ignites a fire in soul.”

In the “Poetic Sensation, “a poem replete with sense of ecstasy, the poet points at the metaphorical effect of poems through “enchanting words.” He talks of the “Drizzles of the creative harmony “which stimulates the soul of Nature.”

In another metaphysical poem “Yearnings”, Mazher Hussain passionately longs for plunging “deep into the river of passion “and by getting involved in a sacred relationship with the beloved, he yearns to uncover

“the veil of mystery “

because he is convinced that

“There

Time writes a tale in the stars.”

The poet sounds metaphysical not in the sense that John Donne and his contemporaries were who were fond of using conceits and mingling intellect and passion together.

Mazher's diction is transparent and his imagery is tangible, not far-fetched.
